

Introduction

TOEFL exam crammer is an online course, designed for students who are thinking of taking the ETS TOEFL exam. It consists of 18 modules and 73 exam-style exercises, and provides approximately 60 hours of study for students.

Course aims

To give students information about, coaching in and practice in all areas of the TOEFL exam, to enable them to be fully prepared when it comes to them taking the test.

Exam practice

Each module concentrates on a different area of the TOEFL exam, giving information about the exam, tips on how to answer the questions and advice about where students often make mistakes. It then tests them on that part of the exam.

Entry and exit tests

Before beginning the course, the student is invited to take an Entry test, which consists of a complete Reading and Writing and Listening paper from the exam. At the end of the course, the student is invited to take another complete Reading and Writing and Listening paper and the student's result is analysed by the program, giving a percentage of improvement and predicts a grade in the actual exam they take.

Unit summary

Module	Unit focus	Details
Module 1	Introduction	Information about the course
Module 2	Introduction	Exam introduction and entry test
Module 3	Listening	General points
